BUILDING WISDOM VIRTUALLY

We know these are uncertain times with the world changing daily! How do we stay sane when all around us is in chaos? How do we take care of ourselves, let alone our families? It's heartening to see people reaching out to friends, family and colleagues to CONNECT!!

JMG has created an INTERACTIVE online GROWTH MINDSET program that will help parents juggling work at home while taking care of the children and other family members. And for the kids, it's a much needed break from the academic, with fun, creative ways to exercise, socialize with classmates and learn!!
